Curriculum Vitae PALLAV GOYAL

Office Address: Skye 276B Office Phone: (951) 827–9927

Department of Mathematics, UC Riverside Email Address: pallavg@ucr.edu

Riverside, CA, 92507 Homepage: https://pallav123goyal.github.io/

Education/Employment

Visiting Assistant Professor, University of California, Riverside
 Ph.D. University of Chicago, Mathematics (Advisor: Victor Ginzburg)

 Thesis - Almost commuting scheme of symplectic matrices and quantum Hamiltonian reduction
 Committee members - Victor Ginzburg, Alexander Beilinson

 M.S. University of Chicago, Mathematics
 B.S. Indian Institute of Technology Kanpur, Mathematics and Scientific Computing with a Minor in Algorithms

Research interests

Representation Theory, Symplectic Geometry, Algebraic Geometry, Combinatorics

Academic honors and awards

McCormick Fellowship, University of Chicago (2 years, \$6,000)
Fellow, Visiting Scholars Resarch Program, Tata Institute of Fundamental Research,
Mumbai
Director's Gold Medal, Indian Institute of Technology Kanpur
General Proficiency Medal, Indian Institute of Technology Kanpur
Fellow, S.N. Bose Scholars Program, Science and Engineering Research Board, Govern-
ment of India
J N Kapur Prize, Indian Institute of Technology Kanpur
Academic Excellence Award, Indian Institute of Technology Kanpur
Infosys Award 2013, Infosys Foundation (1 year, ₹15,000)
Bronze medal, 54th International Mathematical Olympiad, Santa Marta, Colombia
Scholar, Kishore Vaigyanik Protsayan Yojana, Department of Science and Technology,
Government of India (5 years, ₹300,000)
Scholar, National Talent Search Examination, National Council of Education, Research
and Training (4 years, ₹24,000)

Publications

- 6. (In preparation) (with Daniele Rosso) Weight modules of the mirabolic quantum group for \mathfrak{sl}_n
- 5. (In preparation) Chevalley Restriction Theorem in Type C and Cherednik algebras over algebraic curves
- 4. (with Peter Samuelson) (Submitted) Hall algebra of restricted representations and Shifted quantum loop algebras, arXiv:math.RT/2508.09405
- 3. Almost commuting scheme of symplectic matrices and quantum Hamiltonian reduction, Algebras and Representation Theory (2024), 27 (2024), 1645-1669
- 2. Invariant Theory of finite general linear groups modulo Frobenius powers, Communications in Algebra, 46 (2018), no. 10, 4511-4529
- 1. (with Santosha Pattanayak) Projective Normality of G.I.T. quotient varieties modulo Finite Groups, Communications in Algebra 45 (2016), no. 7, 2996-3004

Talks and presentations

- 2025 Mar. UC Riverside Representation theory seminar: Bridgeland's theorem on the Hall algebra construction of the full quantum group
- Mar. Washington University at St. Louis (Gone Fishing): Shifted quantum loop algebras and Hall algebras
- Feb. UCLA Algebra seminar: Hall algebras of \mathfrak{sl}_2 -modules over positive characteristic and shifted quantum loop algebras

- 2024 Oct. UC Riverside Representation theory seminar: Representations of \$\mathbf{sl}_2\$ over positive characteristic and Hall algebras IIT Kanpur Collouquium: Classical Mechanics and Hamiltonian reduction May University of Georgia (Representation Theory and Related Geometry: Progress and Prospects): Chevalley restriction theorem for algebraic curves Apr. UW Milwaukee (AMS Spring Sectional): Chevalley restriction theorem for algebraic curves - Apr. Northwestern University (Gone Fishing): Chevalley restriction theorem for algebraic varieties and Cherednik algebras 2023 Nov. UC Riverside Algebraic Geometry seminar: Mechanics and Hamiltonian reduction - Aug. IIT Bombay Colloquium: Almost commuting variety and quantum Hamiltonian reduction — Aug. TIFR Mumbai Colloquium: Almost commuting variety and quantum Hamiltonian reduction — May University of Chicago 3-minute thesis: Classical mechanics and almost commuting variety Apr. University of Notre Dame Algebraic Geometry and Commutative Algebra seminar: Almost commuting variety and quantum Hamiltonian reduction 2022 Sep. UChicago WOMP: Classical Mechanics and Hamiltonian reduction - Apr. UChicago Student Representation Theory seminar: Generalizations of the Chevalley Restriction Theorem Feb. UChicago Pizza seminar: Mathematics of Shoelacing 2021 Nov. UChicago Student Representation Theory seminar: An introduction to rational Cherednik algebras — Feb. UChicago Student Algebraic Geometry seminar: An introduction to fibred categories 2020 Oct. UChicago Student Representation Theory seminar: Deformation theory of associative algebras and Hochschild cohomology Mar. UChicago Student Representation Theory seminar: Category \mathcal{O} in positive characteristic 2019 Nov. UChicago Student Representation Theory seminar: Borel-Weil-Bott theorem – Oct. UChicago Student Representation Theory seminar: An introduction to Category $\mathcal O$ 2018 Jun UChicago first Year seminar: Harishchandra isomorphism 2017 Jul. TIFR Mumbai VSRP presentations: The First Fundamental Theorem on invariants of actions of linear algebraic groups - Apr. IIT Kanpur Departmental seminar: Invariant Theory of General Linear Groups over Finite Fields
- Fields
 2016 Jun. UW Madison S.N. Bose Scholars presentations: Invariant Theory of General Linear Groups
- over Finite Fields over Finite Fields
- 2015 Oct. IIT Kanpur Topology and Algebraic Geometry seminar: Diamond Lemma and its applications

Other achievements

- 2021, 2024 Finalist, Indian Sudoku Championship
- 2013 2014 Finalist, International Collegiate Programming Contest, Amritapuri Regionals

Organizing activities

Conferences and other meetings

- 2024 Oct. Organizer (with Peter Samuelson and Boris Tsvelikhovskiy), Special session on Noncommutative Algebras in Representation Theory and Topology at the AMS Western Sectional at UC Riverside, CA
- 2024 May Volunteer, Mathematical Pathways to an Excellent Future at UC Riverside, CA

Graduate seminars and other activities

- 2020 Fall Organizer (with Ignacio Darago), UChicago Student Representation Theory Seminar on Deformation Theory and Deligne's Conjecture
- 2020 Wint. Organizer (with Ignacio Darago), UChicago Student Representation Theory Seminar on Perverse Sheaves and Kazhdan-Lusztig Conjectures

2019	Fall	Organizer (with Ignacio Darago), UChicago Student Representation Theory Seminar
		on \mathcal{D} -modules and Beilinson-Bernstein Localization

2019 Sep. Organizer (with Hao Lee), WOMP UChicago , Warmup and Orientation Program for incoming math graduate students

Referee and review activities

- Transformation Groups referee
- \bullet zbMATH Open reviewer
- Math Reviews reviewer

Other community outreach

2017 - 2019	Lecturer at Knowledge Center for Success (KCS) Bhilai: Gave lectures on several topics
	including Recurrence relations, Ceva's theorem and Pigeonhole principle geared towards
	training high school students for mathematical olympiads
2014 - 2017	Academic mentor, Academics Core team member and Coordinator at Counselling Ser-
	vice IIT Kanpur: Helped organize and gave lectures as well as provided one-to-one
	mentoring to students facing difficulties in mathematics classes at IIT Kanpur
2013	Volunteer at Help Student India Bhilai: Gave mathematics lectures to students from
	economically weaker sections of the society and trained them for competetive exams

Teaching activities

Personal development

2023	Winter	College Teaching Certificate: Program offered by Chicago Center for Teaching to help
		instructors reflect on their pedagogical style and to learn and implement better teaching
		practices through seminars, workshops and feedback from professionals
2022	Fall	Academic and Professional Writing (LRS): Course offered by the Writing Program
		(UChicago) on tools for making academic research and technical writing more lucid
		and effective for readers
2022	Spring	Workshop on Inclusive Teaching, Chicago Center for Teaching
2022	Winter	Seminar and Workshop on Teaching statement and Portfolio, Chicago Center for Teach-
		ing
2021	Fall	Fundamentals of Teaching in Science: Workshop series offered by Chicago Center for
		Teaching focused on teaching methodologies for teaching college courses in STEM fields
2020	Spring	College Teaching and Course Design: Course offered by Chicago Center for Teaching
		on student-centered pedagogical strategies for designing and implementing an under-
		graduate course

C

Courses	taught at	UC Riverside
2025	Spring	Introduction to Discrete Structures (Math 11/CS 11)
2025	Spring	Introduction to Ordinary Differential Equations for Physical Sciences and Engineering
		(Math 45/EE 20)
2025	Winter	Precalculus: An Introduction to Functions I (Math 6A)
2025	Winter	Precalculus: An Introduction to Functions I (Math 6A)
2024	Fall	Introduction to Discrete Structures (Math 11/CS 11)
2024	Fall	Introduction to Discrete Structures (Math 11/CS 11)
2024	Spring	First-year Calculus (Math 9A)
2024	Spring	Calculus for Life Sciences II (Math 7B)
2024	Winter	Calculus for Life Sciences I (Math 7A)
2024	Winter	Polynomials and Number Systems (Math 140)
2023	Fall	First-year Calculus (Math 9A)

2023 Fall Calculus: Several variables (Math 10B) Courses taught at UChicago

4

Claudia Yao, Ajay Mitra: Representation theory of complex semisimple Lie algebras

Spencer Dembner: Dirichlet's class number formula for imaginary quadratic fields

2020 Summer Yueheng Zhang: Spectral graph theory

Neil Mauskar: Fourier analysis

Thiviya Kumaran: Deep learning

Elizabeth Ombrellaro: Group theory and ring theory

Roy McKenzie: An introduction to generating functions

2020 Spring

2020 Winter

2019 Spring

2019 Winter

2019 Fall

2018 Fall
