

Curriculum Vitae

PALLAV GOYAL

Office Address: Campusvej 55

IMADA, University of Southern Denmark

DK-5230 Odense M

Office Phone: +45 (65) 504246

Email Address: pallavg@imada.sdu.dk

Homepage: <https://pallav123goyal.github.io/>

Education/Employment

- 2026 – Postdoc, Department of Mathematics and Computer Science, University of Southern Denmark
- 2026 – 2026 Math Fellow, Department of Mathematics, University of California, Riverside
- 2023 – 2026 Visiting Assistant Professor, Department of Mathematics, University of California, Riverside
- 2023 Ph.D. University of Chicago, Mathematics (Advisor: Victor Ginzburg)
Thesis - Almost commuting scheme of symplectic matrices and quantum Hamiltonian reduction
Committee members - Victor Ginzburg, Alexander Beilinson
- 2019 M.S. University of Chicago, Mathematics
- 2017 B.S. Indian Institute of Technology Kanpur, Mathematics and Scientific Computing with a Minor in Algorithms

Research interests

Representation Theory, Combinatorics, Algebraic Geometry

Academic honors and awards

- 2026 Simons Travel Grant, American Mathematical Society (2 years, \$5,000) (Declined)
- 2025 Outstanding VAP Award, Department of Mathematics, University of California Riverside
- 2017 – 2019 McCormick Fellowship, University of Chicago (2 years, \$6,000)
- 2017 Fellow, Visiting Scholars Research Program, Tata Institute of Fundamental Research, Mumbai
- 2017 Director's Gold Medal, Indian Institute of Technology Kanpur
- 2017 General Proficiency Medal, Indian Institute of Technology Kanpur
- 2016 Fellow, S.N. Bose Scholars Program, Science and Engineering Research Board, Government of India
- 2015 J N Kapur Prize, Indian Institute of Technology Kanpur
- 2014 – 2016 Academic Excellence Award, Indian Institute of Technology Kanpur
- 2013 - 2014 Finalist, International Collegiate Programming Contest, Amritapuri Regionals
- 2013 Infosys Award 2013, Infosys Foundation (1 year, ₹15,000)
- 2013 Bronze medal, 54th International Mathematical Olympiad, Santa Marta, Colombia
- 2012 – 2017 Scholar, Kishore Vaigyanik Protsayan Yojana, Department of Science and Technology, Government of India (5 years, ₹300,000)
- 2011 – 2012 Scholar, Indian National Mathematical Olympiad, Homi Bhabha Centre for Science Education
- 2010 Scholar, Regional Mathematical Olympiad (Chhattisgarh region), Homi Bhabha Centre for Science Education
- 2009 – 2013 Scholar, National Talent Search Examination, National Council of Education, Research and Training (4 years, ₹24,000)

Publications

7. (In preparation) *Cherednik algebras over curves with a $\mathbb{Z}/2$ -action*
6. (pre-print) *The commuting scheme of $\mathfrak{g}_2$* ,
[arXiv:math.AG/2610.05018](https://arxiv.org/abs/math/2610.05018)
5. (with Daniele Rosso) (pre-print) *Representation theory of mirabolic quantum $\mathfrak{sl}_n$* ,
[arXiv:math.RA/2510.07469](https://arxiv.org/abs/math/2510.07469)

4. (with Peter Samuelson) (pre-print) *Hall algebra and shifted quantum affine algebras*, arXiv:math.RT/2508.09405
3. *Almost commuting scheme of symplectic matrices and quantum Hamiltonian reduction*, Algebras and Representation Theory (2024), **27** (2024), 1645-1669
2. *Invariant Theory of finite general linear groups modulo Frobenius powers*, Communications in Algebra, **46** (2018), no. 10, 4511-4529
1. (with Santosha Pattanayak) *Projective Normality of $G.I.T.$ quotient varieties modulo Finite Groups*, Communications in Algebra **45** (2016), no. 7, 2996-3004

Talks and presentations

- 2026 May UCSD algebra seminar: Representation theory of the mirabolic quantum group
 — Apr. Purdue mathematical physics seminar: Representation theory of the mirabolic quantum group
 — Feb. UC Riverside representation theory seminar: The commuting scheme of Lie algebras
 — Jan. Chennai Mathematical Institute (Geometric and Category-Theoretic approaches to Conformal Field Theory): Hall algebras and shifted quantum affine algebras
- 2025 Dec. IISc Algebra and Combinatorics seminar: Hall algebras and shifted quantum affine algebras
 — Nov. ICMS, Edinburgh (New perspectives in quantum representation theory): Hall algebras and shifted quantum affine algebras
 — Oct. UC Riverside Representation theory seminar: Hall algebras and shifted quantum affine algebras
 — Aug. University of Denver (Special Session on Geometry, Integrability, Symmetry and Physics at AMS Fall Western Sectional): Hall algebras and shifted quantum affine algebras
 — Mar. UC Riverside Representation theory seminar: Bridgeland's theorem on the Hall algebra construction of the full quantum group
 — Mar. Washington University at St. Louis (Gone Fishing): Shifted quantum loop algebras and Hall algebras
 — Feb. UCLA Algebra seminar: Hall algebras of $\mathfrak{sl}_2$ -modules over positive characteristic and shifted quantum loop algebras
- 2024 Oct. UC Riverside Representation theory seminar: Representations of $\mathfrak{sl}_2$ over positive characteristic and Hall algebras
 — Jul. IIT Kanpur Colloquium: Classical Mechanics and Hamiltonian reduction
 — May University of Georgia (Representation Theory and Related Geometry: Progress and Prospects): Chevalley restriction theorem for algebraic curves
 — Apr. UW Milwaukee (Special session on Geometric Methods in Representation Theory at AMS Spring Central Sectional): Chevalley restriction theorem for algebraic curves
 — Apr. Northwestern University (Gone Fishing): Chevalley restriction theorem for algebraic varieties and Cherednik algebras
- 2023 Nov. UC Riverside Algebraic Geometry seminar: Mechanics and Hamiltonian reduction
 — Aug. IIT Bombay Colloquium: Almost commuting variety and quantum Hamiltonian reduction
 — Aug. TIFR Mumbai Colloquium: Almost commuting variety and quantum Hamiltonian reduction
 — May University of Chicago 3-minute thesis: Classical mechanics and almost commuting variety
 — Apr. University of Notre Dame Algebraic Geometry and Commutative Algebra seminar: Almost commuting variety and quantum Hamiltonian reduction
- 2022 Sep. UChicago WOMP: Classical Mechanics and Hamiltonian reduction
 — Apr. UChicago Student Representation Theory seminar: Generalizations of the Chevalley Restriction Theorem
 — Feb. UChicago Pizza seminar: Mathematics of Shoelacing
- 2021 Nov. UChicago Student Representation Theory seminar: An introduction to rational Cherednik algebras
 — Feb. UChicago Student Algebraic Geometry seminar: An introduction to fibred categories

- 2020 Oct. UChicago Student Representation Theory seminar: Deformation theory of associative algebras and Hochschild cohomology
 — Mar. UChicago Student Representation Theory seminar: Category $\mathcal{O}$ in positive characteristic
 2019 Nov. UChicago Student Representation Theory seminar: Borel-Weil-Bott theorem
 — Oct. UChicago Student Representation Theory seminar: An introduction to Category $\mathcal{O}$
 2018 Jun. UChicago first year seminar: Harishchandra isomorphism
 2017 Jul. TIFR Mumbai VSRP presentations: The First Fundamental Theorem on invariants of actions of linear algebraic groups
 — Apr. IIT Kanpur Departmental seminar: Invariant Theory of General Linear Groups over Finite Fields
 2016 Jun. UW Madison S.N. Bose Scholars presentations: Invariant Theory of General Linear Groups over Finite Fields
 2015 Oct. IIT Kanpur Topology and Algebraic Geometry seminar: Diamond Lemma and its applications

Other achievements**Organizing activities**

Conferences and other meetings

- 2024 Oct. Organizer (with Peter Samuelson and Boris Tsvetikhovskiy), Special session on Non-commutative Algebras in Representation Theory and Topology at the AMS Western Sectional at UC Riverside, CA
 2024 May Volunteer, Mathematical Pathways to an Excellent Future at UC Riverside, CA

University service

- 2025 Member, Teaching Workshop Committee, UC Riverside
 2020 Fall Organizer (with Ignacio Darago), UChicago Student Representation Theory Seminar on Deformation Theory and Deligne's Conjecture
 2020 Wint. Organizer (with Ignacio Darago), UChicago Student Representation Theory Seminar on Perverse Sheaves and Kazhdan-Lusztig Conjectures
 2019 Fall Organizer (with Ignacio Darago), UChicago Student Representation Theory Seminar on $\mathcal{D}$ -modules and Beilinson-Bernstein Localization
 2019 Sep. Organizer (with Hao Lee), WOMP UChicago, Warmup and Orientation Program for incoming math graduate students

Referee and review activities

- *Transformation Groups* referee
- *Communications in Mathematical Physics* referee
- *zbMATH Open* reviewer
- *Math Reviews* reviewer

Other community outreach

- 2017 – 2019 Lecturer at Knowledge Center for Success (KCS) Bhilai: Gave lectures on several topics including Recurrence relations, Ceva's theorem and Pigeonhole principle geared towards training high school students for mathematical olympiads
 2014 – 2017 Academic mentor, Academics Core team member and Coordinator at Counselling Service IIT Kanpur: Helped organize and gave lectures as well as provided one-to-one mentoring to students facing difficulties in mathematics classes at IIT Kanpur
 2013 – Volunteer at Help Student India Bhilai: Delivered lectures to students from economically weaker sections of the society and trained them for competitive exams

Teaching activities

Personal development

- 2024 – 2026 Education seminar, UC Riverside: Weekly seminar for discussions on research on math education, on topics such as problem solving heuristics, quantitative reasoning, inquiry-based learning, socio-mathematical norms, writing proofs and proof comprehension.

2023	Winter	College Teaching Certificate: Program offered by Chicago Center for Teaching and Learning to help instructors reflect on their pedagogical style and to learn and implement better teaching practices through seminars, workshops and feedback from professionals
2022	Fall	Academic and Professional Writing (LRS): Course offered by the Writing Program (UChicago) on tools for making academic research and technical writing more lucid and effective for readers
2022	Spring	Workshop on Inclusive Teaching, Chicago Center for Teaching and Learning
2022	Winter	Seminar and Workshop on Teaching statement and Portfolio, Chicago Center for Teaching and Learning
2021	Fall	Fundamentals of Teaching in Science: Workshop series offered by Chicago Center for Teaching and Learning focused on teaching methodologies for teaching college courses in STEM fields
2020	Spring	College Teaching and Course Design: Course offered by Chicago Center for Teaching and Learning on student-centered pedagogical strategies for designing and implementing an undergraduate course

Courses taught at UC Riverside

2026	Spring	Calculus: Several variables (Math 10B)
2026	Spring	Geometry (Math 133)
2026	Winter	First-year Calculus (Math 9C)
2026	Winter	Polynomials and Number Systems (Math 140)
2025	Fall	Geometry (Math 133)
2025	Fall	Linear Algebra I (Math 131)
2025	Spring	Introduction to Discrete Structures (Math 11/CS 11)
2025	Spring	Introduction to Ordinary Differential Equations for Physical Sciences and Engineering (Math 45/EE 20)
2025	Winter	Precalculus: An Introduction to Functions I (Math 6A)
2025	Winter	Precalculus: An Introduction to Functions I (Math 6A)
2024	Fall	Introduction to Discrete Structures (Math 11/CS 11)
2024	Fall	Introduction to Discrete Structures (Math 11/CS 11)
2024	Spring	Calculus for Life Sciences II (Math 7B)
2024	Spring	First-year Calculus (Math 9A)
2024	Winter	Calculus for Life Sciences I (Math 7A)
2024	Winter	Polynomials and Number Systems (Math 140)
2023	Fall	Calculus: Several variables (Math 10B)
2023	Fall	First-year Calculus (Math 9A)

Courses taught at UChicago

2022	Fall	Calculus II (Math 15200)
2022	Winter	Studies in Mathematics II (Math 11300)
2021	Fall	Mathematical Methods for Social Sciences (Math 19520)
2021	Spring	Calculus III (Math 15300)
2021	Winter	Linear Algebra (Math 19620)
2020	Fall	Linear Algebra (Math 19620)
2020	Spring	Elementary Functions and Calculus III (Math 13300)
2020	Winter	Elementary Functions and Calculus II (Math 13200)
2019	Fall	Elementary Functions and Calculus I (Math 13100)

Recitations led at UChicago

2019	Spring	Analysis in $\mathbb{R}^n$ (Math 20300)
2019	Winter	Abstract Linear Algebra (Math 20250)

2018 Fall Representation theory of finite groups (Math 26700)

Courses graded for at UChicago

2020 Spring Algebra III (Math 32700)

2019 Fall Calculus III (Math 15300)

Mentoring activities

Undergraduate students advised (while at UChicago)

2023 Spring Charles Benello: Polynomial time algorithm for primality testing

2023 Winter William Hu: Representation theory of finite groups

2022 Fall Jakob Wellington: Elliptic curves cryptography

2022 Summer Alex Sheng: Elliptic curves with complex multiplication

2022 Spring Andrey Shapiro: Spectral graph theory

2022 Winter Alex Sheng: Invariant theory of finite groups

2021 Fall Drew Melman-Rogers: Adjoint functor theorem

2021 Summer Ben Goldman: An overview of Lie Theory and Peter-Weyl Theorem

2021 Summer Henry Hale: Representations of quivers and Gabriel's theorem

2021 Summer John Naughton: Schubert calculus and enumerative geometry

2021 Spring Judson Kuhrman: Representation theory of compact Lie groups

2021 Winter Yuchen Chen: Linear algebraic groups

2020 Fall Ruochuan Xu: An introduction to knot theory

2020 Summer Sayali Gove: Probabilistic methods in combinatorics

2020 Summer Anushka Murthy: Introduction to matroids

2020 Summer Yueheng Zhang: Spectral graph theory

2020 Spring Neil Mauskar: Fourier analysis

2020 Winter Claudia Yao, Ajay Mitra: Representation theory of complex semisimple Lie algebras

2019 Fall Thiviya Kumaran: Deep learning

2019 Spring Elizabeth Ombrellaro: Group theory and ring theory

2019 Winter Spencer Dembner: Dirichlet's class number formula for imaginary quadratic fields

2018 Fall Roy McKenzie: An introduction to generating functions
